

DRAFT Agenda

Environmental Permitting On Working Lands

Participants will be provided with information on the regulatory process required to implement conservation actions on aquatic lands including streams, rivers, wetlands, floodplains, and forestlands. Participants will also gain awareness of NEPA, SEPA, Federal, State, Tribal, and local permit processes. Target audience includes CD, NRCS, and other agency staff involved in planning and implementing conservation actions on private and Tribal land.

April 13-14 and 20-21, 2021
